

J.I.M. Ministry Base

Transitioning into True Apostolic Reformation

By Greg Crawford Apostle

This is a rough outline of how to make the transition into the reformation God is doing currently. Each has many areas and a need to take time to develop these first in shifting leadership approaches and theology, and then the function of the ministry. We function out of what we believe and value. These must first change then the body will move differently

Leadership transition

- * Reactive (tells what you want to hear) to proactive (Tells what you need to hear)
- * Terminology and mindset paradigms shifted into Kingdom, (corporate Body of Christ)
- * Seeing potentials in individuals, Purpose, Destiny, Trust, love
- * Development of a Core team of apostolic leaders and Elders, having co-ownership of the vision

Theological transition

- * Kingdom theology established. This is the main mandate now happening in the church.
- * Foundational doctrines based = maintaining position, Christ doctrine, Apostles Doctrine
- * Revelation of mysteries = expansion of kingdom dynamics
- * Restoration theology - fully embraced **Heb 6:1, Acts 3:21**
- * Eschatology – the doctrine of last things
- * Ecclesiology – The doctrine of the church (ekklesia) as Jesus defined and meant to be

Functioning Transition

- * Program driven church changed to Spirit led meetings
- * Realizing the Chronos (Natural seasons) and Kariso (divine moments) times of God
- * Gifts released in people and services office restored to the Body
- * True biblical Apostolic Government in place and functioning
- * Environment for creativity to be released, prophetic worship, arts, writing
- * People mobilized and purpose and destiny released to accomplish kingdom mandates
- * Marketplace ministry fully established.
